India is an essential partner. Premier Jean Charest is seeking to develop and strengthen ties with India in Québec's stand-out business sectors, notably the environment, transportation, information and communication technologies, biotechnology and aeronautics, as well as in the areas of education and research.

The conference will bring to light future prospects in India for Québec companies, educational institutions and researchers. The Premier's presentation will be followed by a conference presented by Dr. Rajendra K. Pachauri, President of the Intergovernmental Panel on Climate Change—recipient organization of the Nobel Peace Prize in 2007.

An information seminar will take place after the Premier's breakfast conference and will include further sector-specific conferences and workshops. This event will mark the recruitment kick-off for the Premier's mission in India from January 31 to February 6, 2010.

Does the Indian market interest you? Do you want to learn more about the mission's goals? Make contacts?
